

Senate Probe Unearths Work of Lobby Ring

Exposes Wholesale Campaigns to Sway the Public and Legislative Opinion on Public Questions.

NAME PRESIDENT WILSON AS LOBBYIST

Witness Says Chief Executive and Underwood Used Probe Bureau to Gain Nomination at Baltimore.

Washington, June 12.—Lobbying as a fine art, how it is done, and who is responsible, what ends are sought, and what results are accomplished, probably will be investigated by the special senate lobby committee before it concludes its work and submits a report to the senate.

For nearly two weeks the five senators on the committee have listened to testimony that has dealt almost exclusively with the influence exerted on the tariff bill, but it has uncovered enough trails to lead members to believe that campaigns of every sort, political, industrial and economical, have been conducted much along the same lines through paid agents and efforts to create sentiment favorable to the cause concerned.

In executive session tonight the senate committee decided to submit to the senate a report on the scope of its inquiry. The investigation has taken so much time that some senators on the committee thought it might be well to limit its activity to a complete inquiry into lobbying for and against sugar and wool, but after a half hour's session, Chairman Overman was later to say the whole matter before the senate.

It was believed tonight that the time limit of twenty days placed upon the committee would be extended and that the investigation would go into every possible phase of what the committee suspects is lobbying. Any citizens that have dangled in the closets of congress and any called lines that may have hung there, will be exhibited to the public eye and legislation to impose drastic restrictions upon lobbying and the "accrual" of public opinion, may result. Chairman Overman said at the conclusion of the executive session that none could see how long the inquiry might take if an extension of time is granted and the committee takes up the broad subject of general lobbying.

The committee's session came at the end of a day filled with sessions. On two occasions President Wilson figured in the testimony. Senator Gallinger told the committee that in his opinion, the president once at least came "dangerously near lobbying" and Trustee G. W. Palmer, Washington representative of the United States sugar beet industry, declared that a "phase meter" campaign much similar to the one conducted in newspapers by him had accompanied the campaign of the president and Representative Underwood before the Baltimore convention.

Practice Widespread. Senator Cummins cross-examined Mr. Palmer at length about details of his newspaper campaign and developed that to the best knowledge of the witness, many of the big interests of the country were engaged in similar efforts to mold the opinion of the country.

Mr. Palmer had been on the stand for several hours when Senator Cummins led him into a discussion of what he knew of other publicity campaigns like his own.

"I understand the same concern that we used, the American Sugar Association, was used by both Mr. Wilson and Mr. Underwood in their nominating campaigns in the same way," said the witness. "I am speaking of campaigns that were done since March, 1912, and I am not speaking of influence legislation."

"Great" Public Opinion. Senator Cummins went on to ask if the railroad and banking interests in New York did not employ men to "create a public opinion."

"I have heard it so stated," said Mr. Palmer.

"And what I have said of the banking interests and the railroad interests is true of all the large corporations, is it not?" Senator Cummins asked.

"That is my understanding."

"Can you give the committee the names of these people so that we can get them here and have a round up of the whole business of trying to color public opinion in this way?"

"From my general information I don't think there would be enough space in this room for them all, if we could get them all together, but I have no personal information as to who the men are."

"The two gentlemen who came to me were particular to impress upon me that they were doing this work for Mr. Wilson and Mr. Underwood, prior to the nomination."

"Do you mean in their campaigns for nomination?"

"In their campaigns for nomination. That is what I was told."

A. G. Robinson of Washington and F. R. Hathaway of Detroit were examined by the committee today.

Mr. Hathaway said he was secretary of the Michigan Sugar company, a concern with six constituent companies, capitalized at \$12,500,000 of which about \$11,000,000 has been issued. He had been in Waco since March, received a salary of \$7500 an secretary, had talked with many senators about the sugar provision of the tariff and had filed a brief with

HE WILLS \$10,000,000

ASTOR ESTATE OFFICIALLY APPRAISED—IS LARGEST IN THE COUNTRY.

Vincent Astor Gets Largest Share.

New York, June 12.—The estate of Col. John Jacob Astor, who perished in the Titanic disaster, was officially appraised this afternoon at \$25,000,000. The principal beneficiaries are Vincent Astor, who receives \$10,000,000; Mrs. Madeleine Foster Astor, \$7,000,000; Mrs. Muriel Astor, \$4,000,000, and John Jacob Astor, son by his second marriage, \$3,000,000.

The estate is declared to be the largest ever appraised in this country. The cost of determining its value was made remarkably low owing to an understanding by which the Astor estate bore one-half the expense and the state of New York the other half. This made it necessary for each side to employ experts, with a possibility of having to engage neutral appraisers in event of a disagreement.

Aside from the announcement of the amounts that revert to the heirs, there are two features of special interest in the appraisal. One is the amount of the children's share of the property. Vincent Astor, the youngest son, received \$10,000,000, which was to be reverted to her at the time of her husband's death, now terminates and goes to Vincent Astor, for the reason that the young's mother, although once Colonel Astor's wife, was not his widow. Mrs. Alvah Willing Astor divorced her husband, whose legal widow is Mrs. Madeleine Foster Astor.

The second feature concerns the inheritance tax of Colonel Astor. The estate saved a large sum by paying \$1,150,000 to the state last October within six months of Colonel Astor's death, this payment earning a five per cent rebate. The sum mentioned greatly exceeds any amount ever paid to any state as an inheritance tax, it is declared.

The appraisers placed the real estate value at about \$25,000,000 and the value of the personal property close to \$25,000,000. The real estate is located on Broadway, upper Fifth avenue, Harlem, the Bronx, the East and West sides, and in Rhinebeck, N. Y., and includes Colonel Astor's Fifth avenue home and his house estate, Fort Belvoir, in Rhinebeck, part of the old Astor House, and the Waldorf-Astoria, the St. Regis and Knickerbocker hotels, and other hotel and office buildings.

The value of much of it, as fixed by the appraisers, is about 50 per cent above the amount it was assessed by the city in 1912. Including both real and personal property, the estate is divided approximately as follows:

Owned by J. J. Astor absolutely, \$11,000,000.

Life interest under trust funds, owned by William Astor, \$12,500,000.

Auto-nuptial trust Mrs. Alvah Willing Astor, \$1,750,000, (which reverts to Vincent Astor).

Two ante-nuptial trusts, Mrs. Madeleine Foster Astor, totaling \$1,400,000.

Property in trust, created by Willing Astor, life interest by J. J. Astor and which passed to Vincent Astor, \$234,000.

ENGINEER FACES GRAVE CHARGE

Trainmen Who Caused Death of Six Persons in Accident of Men.

Stanford, Conn., June 12.—Engineer Charles J. Doherty of New Haven, whose train on the New York, New Haven and Hartford railroad, crashed into the Pullman car "Skyliner" last evening dealing death to six persons and injury to many others, was arrested tonight on the charge of manslaughter. The warrant was issued by Assistant Prosecutor F. W. Huxford. Doherty was fined \$5,000, which was furnished by John Doherty, Doherty's brother-in-law.

At the coroner's inquest today, Doherty ended his dramatic story of the wreck. Then he broke down and sobbed aloud for several minutes. He had detailed how, when his train failed to respond to the alarm, he applied more and more and then "let her have the whole thing." Then he threw on the emergency brake, applied sand to the rails and reversed his lever as far as he was able. He insisted that he had taken every possible precaution.

Doherty's friend, Harry Smith, corroborated his testimony, as did the conductor and baggage master.

DEFEND MARTIAL LAW IN STRIKE

FORMER GOVERNOR DECLARED REIGN OF TERROR EXISTED DURING LABOR WAR.

GUN BULE BROUGHT PEACE

Officials Claim Civil Courts Could Not Be Trusted to Try the Cases.

Charleston, W. Va., June 12.—After hearing former Governor Glascock's explanation of the condition under which the Palat Creek and Cabin Creek mining districts were placed under the domination of military rule, the senate mine strike investigating committee tonight hurried its hearings along with but a single branch of its inquiry here to be concluded. The testimony of Governor Glascock and the civil officials of Kanawha county in power during the strike, concluded the record under the head of the "arrest and conviction of citizens contrary to the laws and constitution."

In no uncertain terms former Governor Glascock and the civil authorities of Kanawha county defended the declaration of martial law in the strike zone.

"There was a reign of terror in the strike district," said the former governor. "Twenty-five or thirty murders had been committed and no protection had been made in the courts. I considered martial law an absolute necessity."

The former governor said he had been reluctant to take charge of the situation with the military but that parties to the industrial party had urged him to do so.

The governor was unequivocal in his defense of the actions of the military commission which tried prisoners in the strike zone.

He explained that sentences imposed by the military commission exceeded the penalties provided by the statutes but were never intended to be carried out. They were planned "for the moral effect," he said.

"I was determined," said the governor, "to have peace and order restored. This was one of the means employed."

Representative G. P. Davis, who was county prosecutor when the trouble began, testified that justice secured in the civil courts could not be depended upon to try cases arising out of strikes because of the widespread prejudice and bias throughout the country.

"You the jurists and lawyers, more subject to this general prejudice than the military officers who made up the military commission," demanded Senator Duran.

"Probably not," replied Mr. Davis. "I said that throughout the strike troubles, the criminal justice system was doing business without interference."

APPROPRIATION BILL IS PASSED

Congress Adopts Measure Exempting Farmers and Labor Unions From Anti-Trust Law.

Washington, June 12.—Only the approval of the president is now needed to make a law of the sundry civil appropriation bill with the exemption of labor organizations and farmers' associations from anti-trust persecutions with funds provided by the measure.

By a vote of 46 to 12, the senate today rejected from its opposition to an item in the bill as it passed the house reducing the number of members of the board of managers of the national soldiers' home from eleven to five.

The suggestion to reduce was made by Senator Martin, who said he would rather defeat the entire bill than to see it go through without the change. It was almost an exact duplicate of the measure voted by President Taft because it contained the provision that none of the money appropriated for the enforcement of the Sherman anti-trust law should be used to prosecute labor organizations or farmers' associations.

Delay in acting on the measure has embarrassed various branches of the government, some of the departmental bureaus being left entirely without funds. Only yesterday the department of commerce announced that inhabitants of the Fribillio Islands, Alaska, were on the verge of a famine because the bureau of fisheries was without money with which to dispatch a supply vessel due to be sent long ago.

MOROS STILL BATTLE.

Fanatic Charge American Soldiers With Sale.

Manila, June 14.—Fierce fighting continues between the American forces under Brigadier General Pershing and the rebellious Moros at Baguio. The Moros still hold one fort. Their attempts to rush the American lines with bolo, which are made with fanatical gallantry, are always repulsed with heavy losses. Today the Americans will attack in strength and their success seems certain.

The latest casualties are one scout killed and one man of the hospital corps wounded.

WORK IS STARTED AT HOTEL SITE

REMOVAL OF BRICK WALL IS THE FIRST TO BE DONE.

WESTLAKE TOOLS ARE HERE

Mortgage Papers Are Filed, Showing the Method of Financing the Hotel.

Work began yesterday tearing down the south wall of the brick building that is located on the corner of Eighth street and the alley, between Washington and Austin streets, just to the rear of where the Riggins hotel is to be located.

The plans for the hotel call for the taking away of this wall, and setting it back ten feet, so as to leave ten feet of space between the brick and the hotel, this space to be for passage-way and ventilation.

A carload of machinery and tools belonging to the construction equipment of the Westlake company arrived from Houston last night, and is to be carted at once to the site of the hotel.

The final papers were signed and filed in the county clerk's office. The vendor's lien which Hogan held on the property was released, his notes were paid in full, and the mortgage covering a loan of \$250,000 was filed.

The mortgage represents \$250,000; the people of Waco have given a bonus of \$50,000 and Mr. Riggins will pay the balance.

The hotel will cost about \$400,000 and the furniture and equipment about \$75,000.

J. W. Riggins and wife, Lockie B. Riggins, yesterday filed in the county clerk's office mortgages for \$150,000 on the lot at the west corner of North Eighth and Austin street. Mortgage to the Mercantile Trust company of St. Louis for \$200,000 calls for interest at the rate of 6 per cent from June 1, 1912. Four hundred notes of \$500 each are executed along with the mortgage. These are due over a period of nine years, beginning in 1915. A portion of the notes come due each year until 1922.

Mortgage to Adolphus Busch was executed in the sum of \$50,000. Seven notes of \$5000 each, one payable each December 31, beginning in 1916 and ending December 31, 1922. The last note is for \$15,000 and is payable on December 31, 1922. These notes bear 7 per cent interest.

Also a release was executed by S. A. Hogan in favor of J. W. Riggins in which for the payment of a stipulated sum, Hogan released all claim and title to the lot in question. The lot is 105x165 feet. Riggins purchased it from Hogan for \$74,992.50. Of the amount \$24,992.50 was cash. The remainder was made due by three notes, one for \$15,000 due in two years, one for \$20,000 due in four years and one for \$15,000 due in six years. These notes were all paid yesterday, and the release signed by Hogan.

Elect T. P. A. Mead.

Richmond, Va., June 12.—George H. Armstrong of Philadelphia, was today elected president of the Travelers Protective Association of America, in convention here. Houston was selected for the next meeting.

Maybe It'll Rain; Maybe It Will Not

IF THE LIGHTNIN' STRIKES ME IT'LL HAVE TO TRAVEL DOGGONE FAST!

Dr. I. Block, weather bird for the Morning News, evidently has become bored with the rain-bug; he now refuses to speak of anything except "maybe."

"Maybe," the doctor chirped, as he thoughtfully eyed the termination of his insignificant moustache, "maybe it will rain Sunday. Maybe it won't. However, I may be misled by that weather bug. At any rate, there is little chance for a sprinkle today. It will remain cooler."

Local Temperature, furnished by Dr. I. Block, voluntary weather observer, for the twenty-four hours ending Friday at 7 p. m.: Maximum 93, minimum 59, barometer 30.6, humidity 50. No rain today. Showers Sunday or Monday. Weather cool.

Washington Forecast.

Washington, June 12.—Ohio—Fair Saturday and probably Sunday. Arkansas—Fair Saturday and Sunday.

Louisiana and West Texas—Fair Saturday and Sunday.

East Texas—Generally fair Saturday and probably Sunday.

PRINT PAPER IS PUT ON FREE LIST

SENATE FINANCE COMMITTEE ADOPTS SECTION OF RECIPROcity ACT.

CAUCUS EXPECTED THIS WEEK

Probably Little Change in Tariff Bill on Floor of the Senate.

Washington, June 12.—Amending the section of the Underwood tariff bill which would place on the free list all paper valued at not more than 2 1/2 cents a pound, the majority members of the senate finance committee today voted to incorporate in the bill the provisions of the Canadian reciprocity act passed in 1911.

This section would extend the free list to include all print paper valued at not more than 2 cents a pound on the condition "that no export duty, export license fee or other export charge of any kind whatsoever, or any prohibition or restriction in any way of the exportation shall have been imposed upon such paper, board or wood pulp or the wood pulp used in the manufacture of such paper or board."

Although the word "Canada" is omitted from the amendment, it would operate against Canada because of that nation's restriction on exports of wood and chemical pulp. Senator Simmons, chairman of the finance committee, said that other proposed restrictive provisions or countervailing duties aimed against Canada had not been acted upon by the majority and that the matter would be taken up again tomorrow. He added that there might be reconsideration of the action thus far taken.

The amendment for pulp wood or for paper could come in free from Canada, when it is the product of free lands in Canada, lands unrestricted by export duty or license fee.

May Call Caucus Wednesday. Senator Simmons stated he believed the committee would conclude its work by next Wednesday and that the democratic caucus could then be called to meet immediately.

It was his opinion that the caucus would not be delayed because of absence of democratic senators in West Virginia as they would be called here to participate in the deliberations if the work should not be completed. Senator Simmons said that he believed it could be reported to the senate by June 25.

Will Probably Rush Bill. "I don't anticipate that the caucus will be prolonged, or that the caucus will materially change the report of the committee, inasmuch as our work has been almost unanimous."

Administrative features of the bill, which have delayed the work of the committee thus far, the senator said, would be solved by the committee within a few days, as the subcommittee in charge of that feature would complete its work and report to the majority members tomorrow. Secretary of the Treasury McAdoo, he said, had submitted many valuable suggestions, many of which would be accepted.

WANTS GRADUAL REDUCTION.

Senator Newlands Says Tariff Bill Protects Eastern Shippers.

Washington, June 12.—That the duty on wool as well as sugar needed a gradual rather than a total reduction, extending perhaps over five or ten years, Senator Newlands contended today before his domestic colleagues. He claimed the question before the country was not only economic but psychological.

"A state of mind may produce an injurious industrial depression," said he, as well as economic changes, and it would be well to guard against such a depression in the west as well as in the east by a graduated process that would disarm fear and inspire hope."

Sensor Newlands said that the tariff bill might go down in history as maintaining the Atlantic coast and middle western states on a protective basis, while shining the southwest and the west to a free trade basis.

Galveston, June 12.—Efforts of the Inland Waterways League of Louisiana and Texas are to be concentrated upon the completion of the section of the intercoastal canal between Galveston and the Mississippi river, according to a decision reached at a meeting of the executive committee of the league here today. To this end it was decided to hold the next meeting of the league at Orange, Texas, on October 16, 17 and 18, next. Plans for the betterment and maintenance of the section of the canal just completed between Corpus Christi and Galveston were also considered.

A luncheon at which the sponsors and maids of honor from the towns along the intercoastal were guests of honor was the feature of the celebration today. This afternoon there is to be a parade along the boulevard in which all those participating in the cruise to Galveston will march. There will be a smoker tonight.

Breaks Air Record.

Annapolis, Md., June 12.—Lieutenant J. H. Bellenger of the navy aviation corps here attained an altitude of 6200 feet in a hydro-aeroplane today, breaking the best previous navy record of 4450 feet for the same type of machine. Lieutenant Bellenger was in the air 40 1/2 minutes.

HENRY SAYS WALL STREET BACK OF CURRENCY BILL

TRUST DEFIED ORDERS

JUDGE GARY ADMITS POOL MEMBERS IGNORED COURT'S RULING.

Steel Corporation Did Not Discover Violation for Four Years.

New York, June 12.—Turning today to the question of wire pools, whose members were indicted and fined in 1911, Jacob McG. Dickinson, attorney for the government in its dissolution suit against the United States Steel corporation, called the attention of Judge Elibert H. Gary, chairman, to his testimony that in 1904 he had given orders to the corporation's subsidiary to withdraw from all pools and had not discovered the participation of the American Steel and Wire company in the wire pool until 1908, "through an outsider."

"What steps did you take to inform yourself that your client had been indicted?" asked the attorney.

"None. I hadn't been looking for burglars in my house and I had no reason to suppose that any were there," replied the chairman. "I assumed that our general solicitor's office had disposed of the whole matter."

"What disciplinary steps did you take when you learned four years later that your orders had been violated? Did you discharge anybody?"

"No, I used emphatic language, but I was thoroughly satisfied that the thing would never occur again. I did not want to deprive anyone whom I had depended upon them of their support. They were fined by the court and disgraced."

The federal attorney put into evidence a statement attributed to Judge Gary, published after a meeting of the steel manufacturers in 1911. In that statement was reported as saying that the subsidiaries of the corporation proposed to meet the price reductions of the Republic Iron and Steel corporation and it is believed these prices will be generally followed. The prices in question were quoted. The witness said he had made the statement in that someone else inserted the prices.

"No one," he added, "was under the least obligation to follow these prices."

Robert Bacon, former ambassador to France and a former partner of J. P. Morgan and company, is expected to testify tomorrow.

Fifty Auditors on Texas-Pacific to Lose Jobs in June

Fort Worth, June 12.—Fifty train auditors will lose their positions during the month of June with the Texas and Pacific and the railroad will save practically \$10,000 per month.

The removal of the train auditors is in keeping with the policy of E. F. Kearney, the new vice president and general manager. Mr. Kearney has set out to reduce the unnecessary overhead expenses of the company, and he believes that the train auditors are a luxury. He is planning many other cuts.

Working out of Fort Worth over the transcontinental, joint, eastern and Rio Grande divisions, are fully twenty auditors, the majority of whom will lose their positions. Several already have been released. Auditors will be kept on lines out of big stations where the traffic is heavy and short stops are made, but in time these may be eliminated. The auditors will be forced to take care of the tickets as in the days before the auditor.

Labor Speakers Fined.

Kansas City, June 12.—Three of the six men arrested last night for public speaking on the labor lockout, now prevailing here, were fined \$500 each today. The men denied they were connected with the Industrial Workers of the World. The technical charge against the men was blockading the sidewalks.

Two American Farmers Killed Fighting On Arizona Soil Against Marauding Mexican State Troops From Sonora

Nogales, Ariz., June 12.—Stricter guard will be kept on the border near Guadalupe, Sonora, sixty miles west of here, where the state troops were surprised by an attack from the Arizona side last Wednesday. Two troops of United States cavalry are on their way to patrol the section. They must make a two days ride from Nogales.

Testimony has been taken at Laona, near Sasabe, by Sheriff Nelson Comstock and County Attorney Pillinger, who are investigating a fight which occurred Tuesday between Mexican residents of the Arizona side and Sonora state troops who had crossed into the United States.

The American farmers were killed and two wounded in combating the invasion from Mexico.

Dr. C. W. Kelly, called to attend the wounded, declared that ammunition is being smuggled over the international line from Arizona.

Officials of Sasabe, a port of entry for cattle, had complained of an attack Wednesday from the Arizona side of the line by an unidentified party. The attackers were driven off only after two of the Sonora state troops guarding the Mexican town, had been killed. The investigation at Laona, however, shows that the insurgent state troops have been crossing

TEXAS CONGRESSMAN MAKES CHARGES AIMED AT THE MONEY "TRUST."

INTRODUCES MEASURE

CALLS FOR FURTHER PROBE OF FINANCIAL RING.

FIGHT IS EXPECTED TUESDAY

Mr. Henry Says Tariff Excitement Is Used as a Cloak by Bankers.

Washington, June 12.—An undercurrent of opposition among a considerable number of house democrats to the plan for currency legislation at this session of congress took definite shape today when Representative Henry of Texas, chairman of the powerful rules committee openly charged that Wall street was back of the propaganda for currency legislation.

While favoring the revision of the banking and currency laws at the next session of congress, Mr. Henry insisted that a further investigation of the so-called "money trust" should be made.

The Fulo committee, he declared, barely scratched the surface of the facts underlying the concentration of control of money and credit, because the controller of the currency refused access to his records, making it impossible for the investigators "to completely expose the existing relations between the Wall street bankers and their allies with the trusts and monopolies, stock gamblers and financial conspirators."

"Wall street bankers," he added, "now are demanding legislation in the currency question in order that they may make a market for their commercial paper—much of it based on rotten securities."

Mr. Henry introduced a bill to amend the banking laws so as to make banking associations subject to the visitatorial powers, "exercised or directed" by congress, or by either house of congress.

To introduce bill Tuesday.

While this was going on, it became known that the administration measure representing the combined views of President Wilson, Secretary of the Treasury McAdoo, Senator Owen of Oklahoma, chairman of the senate banking and currency committee, and Representative Glass, chairman of the house banking and currency committee, would be introduced in the house next Tuesday and that the full committee of the house probably would meet to take up the bill a day or two later.

President Wilson is expected to send a message on the subject probably Tuesday. Mr. Glass had a long conference today with Secretary McAdoo going over the details of the bill.

Urges Quick Action.

It is an imperative duty to pass currency legislation at this session of congress," said Mr. Glass tonight. "It seems singular to me that any well-informed member of congress should imagine that the need is not urgent. If any such member will come to the banking and currency committee room and note the volume of correspondence on the subject with which the secretary has been deluged and the tenor of the letters written he will easily become convinced, not only that the bankers of the country favor legislation, but that the business men of every description favor it, the latter even more urgent than the former."

Members of the house committee, while disposed to follow the party leadership, are not agreed upon the necessity of currency legislation now. They are in a waiting mood and seeking light.

Declares Bankers Are Active.

Mr. Henry in his statement accompanying the bill, declared that the Wall street banks, thinking the people

CAMPECHE IN REVOLT.

Governor Brito Takes Field Against Huerta With Thousand Men.

Eagle Pass, Tex., June 12.—Constitutionalist headquarters at Piedras Negras today received official advice from Governor Castillo Brito of the state of Campeche, that he has taken the field against Provisional President Huerta with one thousand men.

Customs officers last night arrested Jose Rodriguez, Manuel Martinez and Pedro Garza, on route to this city from Crystal City, where they are alleged to have purchased a quantity of ammunition.

They will be arraigned tomorrow before United States Commissioner Bonnet with Juan Trevino, arrested on a charge of attempting to smuggle ammunition into Mexico.

Refugees Reach Tampico.

Washington, June 12.—The state department was advised today of the arrival in Tampico of a number of Americans forced to leave the San Diego colony. John Cunningham, an American living in Concepcion, San Luis Potosi, is reported to have been brutally assaulted by rebels who took most of his belongings and destroyed what could not be moved.

Society Personals.

Mrs. Dan Wise is today arriving in Colorado, where she will spend the summer.

Mrs. Bradford Hancock of North Thirteenth is in her former home, Galveston, for an extended sojourn. Miss Nell Syme, Twelfth and Columbus, has for her guest Miss Laura Murchison of San Antonio.

Mrs. Edward Syme is on a visit to her girlhood home, Gallatin, Tennessee.

Miss Frances van Boddie arrived at home on Friday.

Mrs. Max Goodman and Miss Sadie Goodman of North Fifth have gone to Corpus Christi.

Mr. and Mrs. S. Y. Lee of Seventeenth and Barnard are at home from Chattanooga.

Miss Lummie Belle Reynaud from Houston will be a guest in the Curtis household, Thirteenth and Clay, after today.

Mrs. Menke of Missouri, the present visitor to Mrs. Nalad Garland on North Sixth, is in Florence for a two weeks visit.

Miss Mary Carter of North Fifth street is with friends in Taylor.

Mrs. Thomas Peyton Scott was due from Dallas on Friday to spend a few days with her mother, Mrs. J. C. Riley, and her sister, Mrs. M. D. Baker.

Dr. and Mrs. W. R. Clifton are at home from their trip to Wooten Wells. On Monday Mrs. E. M. Ewing of Tennessee, where she will remain until cool weather.

AWARD MEDAL OF HONOR.

Secretary Decorated Navy Men for Heroic Actions.

Washington, June 13.—Special medals of honor have been awarded by Secretary McAdoo to Sergeant Harry Williams of the marine corps, and to Private William Rouse, Jr., of the coast artillery. Williams gets a gold medal for the rescue of a man who fell from a New York ferry boat. A silver one goes to Rouse for the rescue of several persons from drowning following the collapse of a dock at Seattle, Washington.

KATE FRIEND, Editor.

THE MISSES STROTHER HAVE PARK GUESTS

One of the recent picnics within the mammoth picnic at Cameron park found the Misses Strother hostesses to invited guests in courtesy to their guest, Miss Pitts of Abilene.

THE HENRY DOWNS CHAPTER REQUESTS THE MERCHANT

The members of the Henry Downs chapter, under whose auspices the raising of the Texas flag over the Old Waco Spring occurs this afternoon, request earnestly all the business houses of the city to display their flags during today. This is the observance of National Flag Day. It is the citizens' duty, and the daughters of the Revolution are only reminding that Flag Day has arrived.

MRS. BUFORD McWHIRTER HAS HER CARD CLUB

In order that the card of hostesses may be made before the meeting of the weather, the Young Married Ladies' Bridge club is playing more frequent games. The midweek game found Mrs. Buford McWhirter hostess, who entertained players for three tables. The prizes fell to Mrs. Leslie Gardner and to Mrs. Will Early, who thus received a welcome back to her club after her absence from the city. Mrs. Harvey Richey will be the hostess for next Tuesday in the morning.

THE BACHELOR MAIDS WITH MISS STELLA LACY

Quite a pleasant afternoon game with the Bachelor Maids found Miss Stella Lacy the last hostess. The prizes were taken by the Misses Maydees Caulfield and Frances Luedde, and the latter bespoke the club for the next game which will be played on Friday in substitute for the accustomed Thursday. Misses Louise Baker, Roberta Early, Rowena Sturgis, Rowena Barnett, Nancy Lacy, Frances Luedde, Maydees Caulfield, Monette Colgin, Lydia Clinton, Marguerite Westbrook, Cox of Tennessee, and Eleanor Blair.

THE MAIDS AND MATRONS WITH MRS. SHEL SPARKS

With the exception of those for absentees, Mrs. Shel Sparks in entertaining the Maids and Matrons had no guests. The game was quite a pleasant one, and found at the close, dainty summer paraisos going as the award to the Misses George Tod and M. D. Baker. Owing to the emancipation of the maid of all work on Thursday, Mrs. George Tod will have the club on Wednesday afternoon of the coming week. Mrs. Sparks offered the plate of salad with side dainties as her refreshment feature. The substitute hands were played by Miss Blanche Gross with the Misses Alfred Edwards, Keith Matthews and J. S. Hill.

THE PROGRESSIVE BRIDGE WITH THE MISSES NAMAN

Just twice the number of accustomed players were found with the Progressive Bridge members in their special game with the Misses Naman, in the home of Miss Charlotte Naman on North Fifteenth street. These additional guests were courtesy to the club friends of the hostesses. Also several out-of-town players made the provision of guests' favors for the Misses Isadore Levy and Bertha Frank of Marlin. The leading score for the matron guests was made by Mrs. Sadie Benedict. The leading score among the club guests was made by Mrs. Edward Silvers, and the second score by Mrs. Nathan Cinnamon. The Misses Lippard were welcomed as new members. The refreshment service came in the form of an ice.

NATIONAL FLAG DAY

In the fact that the Texas flag is to be raised by the Henry Downs chapter today, it is timely to tell something of the origin of that symbol for the Lone Star state. And yet this is a difficult thing to do, for it is still in question as to how the one star came to be upon our flag. It is claimed that the lone emblem represents the lone republic which Texas was after she separated from Mexico and was not annexed to the union. Again, it is said that the star came by accident. It seems that one of the first state documents must carry the state seal, and Texas had none. One of the men at the helm happened to wear a coat where the brass button was ornamented with a single star. This he took and with it gave the impression into the wax. Hence, we have the one star in our flag. These are two suggestions. The third comes with a recent event of state importance, the call from Governor Colquitt for contributions towards the fund which shall bring the ashes of Johanna Troutman from Georgia to be buried in our state cemetery in Austin.

Who Johanna Troutman is. After urgent appeals, the relatives of Miss Troutman finally gave consent

for the removal of her remains to Texas. This is because she designed and made the first flag for the republic of Texas. Her design was afterwards adopted, and this, it seems, would refute the two other theories concerning our Lone Star. Miss Johanna Troutman, the beautiful young girl of Knoxville, Ga., inspired a number of her young men friends to form a company and go over to fight for Texas, who was under the unjust and cruel government of Mexico. Catching the fire of her patriotism, a number enlisted into a regularly organized company at Macon, Ga. Miss Troutman made for them a silk flag. She placed a single star in the azure field, and under it had "Liberty or Death." This flag followed the battalion through long and arduous service. It reached Galveston, the scene of the bitterest fight, and was there inadvertently destroyed. In recognition of her patriotism, the silver service captured at the battle of San Jacinto was sent to Miss Troutman by General Rusk. This service is now owned by Mrs. Pope in Tuskegee, Ala. Slightly modified, the first Texas congress adopted the design of Miss Troutman's flag. In the uproar of enthusiasm and military celebration, this banner was raised to stream over the mission of La Bahia, still visited at Galveston. An effort was made to lower the banner at sunset, but it became entangled among the spikes, and only the slight fragment was secured.

Woman's Patriotism. Thus, when a woman's patriotism and influence sent the flag of victory to Texas, it is eminently fitting that women, the Henry Downs chapter of our city, should give it the honor which comes to the Texas Lone Star flag at the Old Spring this afternoon. It is fitting, too, that the story be told again, as to why Texas asks for the ashes of Johanna Troutman, and will erect a monument to her memory at Austin.

Flag Raising Exercises.

It has been published that all patriotic citizens are invited to the celebration at 6 o'clock this afternoon at Old Spring park. Especially, should parents attend and tell their children the story of the flag and its origin. They should tell that the red is for courage and bravery, the white for purity, and the blue for faith—brave, pure and faithful to one's country and state. It is urged that flags be worn both on the person and on the vehicles. It is hoped that every home will today display the dual flag of Old Glory and of the Texas Lone Star.

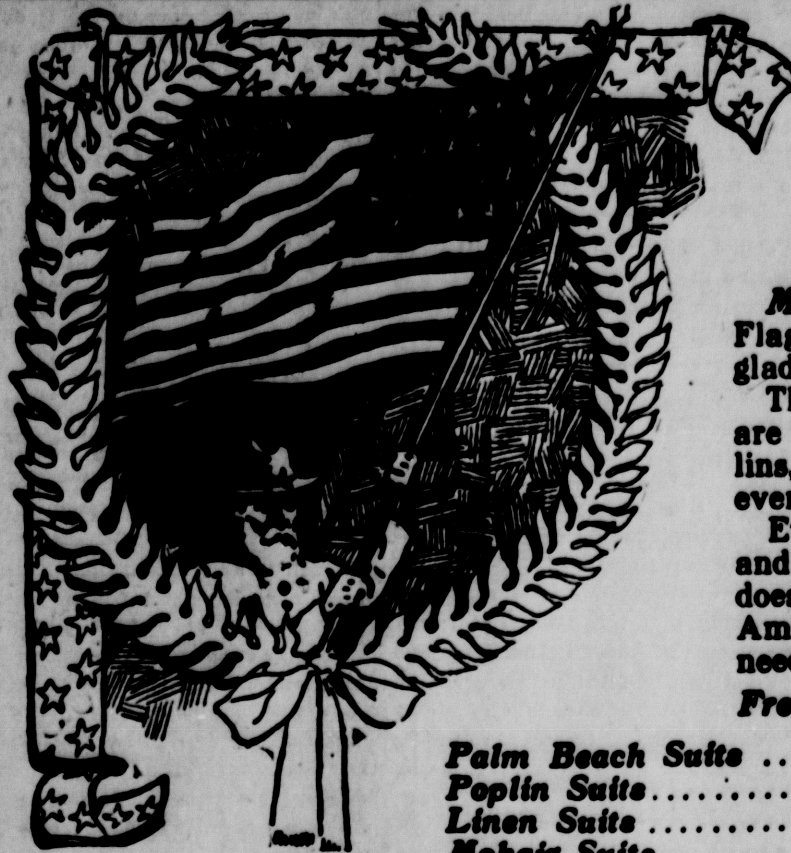

THE BRIDGE DEVOTEES MAY TAKE HINTS

Following the remarks upon whether or not women gamble when they enjoy a game of cards and receive a prize, it may be questioned, what about this? Remember, the writer is not advocating the card game; neither is she decrying the same. But, she rather dwells upon the thought that in some things, it happens time and time again; indeed, it has grown to be the custom, for a card hostess to welcome at the close of her game a number who do not play cards. These arrive to enjoy meeting the players, partaking of the luncheon, and passing the time in a half-hour. So far so good. But where is the consistency when all join in cutting for the consolation? If it is wrong to deal the cards and lay them out, then to receive an award for the one who cuts the highest spot. Verily, there should be consistency. The very women who will accept, and with evident pleasure, the prize for the high cut, will denounce the woman who plays the game and accepts the award for the high score. Some may have a mental microscope that dissects into a difference but the writer is too dull to do it. Let us be consistent. If cards and prizes are wrong, then any way the cards are handled and the prize is accepted is wrong.

A TENDER TRIBUTE TO THE LATE MRS. COHEN

The passing away of Mrs. H. W. Cohen revived among the old members of the Floral society, which Mrs. Cohen organized and served as president, the old happy association. Keen regret felt at the separation from Mrs. Cohen took material form in the following, which has been sent to Dr. Cohen, the only surviving member of the family at present in the city: "Inasmuch as it hath pleased our Heavenly Father to take from us our beloved friend and co-worker, Mrs. H. W. Cohen, we, the members of the Floral society, who were associated with her as its first president, wish to extend to the husband and family our sincere sympathy and to assure them that their loved one will ever be held by us in loving remembrance.

Society Notes.

Miss Janet Matthews, who is down from Colorado for her vacation with old home friends, has joined the house party with the Misses Webb and Sedwick in Albany.

It is now arranged that Mrs. Pio Crespi will matronize the Matthews residence, Sixteenth and Morrow, another winter.

Letters from Mrs. Edward Marshall tell of her immediate departure from her home in Phoenix, Arizona, to her mountain cottage near Phoenix. There is quite a colony of residents who have this ideal retreat from the warmer weather in the city.

Mr. and Mrs. Cullen Cooper's car reached home friends on Friday. They were mailed in Washington, reported a wonderfully interesting experience in Baltimore, with a boat trip to New York, and the Hudson scenic day to Albany with stops in the cities en route home.

The board of the Evangelia Settlement are proud to tell it that the debt on the Settlement House is now all paid except the paltry balance of seventy-five dollars.

Some are taking to the idea of a thin oilcloth in cream or other light tone as substitute for paper on the kitchen walls. This means that the

fumes from the stove can then be removed.

Do not appear today unless you have the flag somewhere in evidence. Show your patriotism.

Winston Churchill seems to have exhausted his "Cr" as book titles. He calls his latest "The Inside of a Cup," that almost reaches it, yet is not quite so much of the Churchill flavor as his former titles.

The sunflowers are bursting in the glory of their midsummer bloom. Suppose we put them into our brass jardiniere for our porch parlors. When we do, let us bear in mind the story of sentiment which hovers over the sunflower. The story in short, is that Clytie loved the sun god Apollo, and he did not requite this love. She drooped and died, and turning into a sun flower, looked ever after him. Utilizing that story, the verse has come to us from Burns, "The Heart."

"The heart that has truly loved As truly loves on till the close As the sunflower turns to her god The same look she gave when she rose."

Watch the flowers on their stately stems, and see if the bloom look towards the sun.

Watch the college set come into its own for a good time. The students, boys and girls, are arriving rapidly.

They say you can always tell when the mother cuts her boys' hair. Wonder how? Some say it is because the edges look as though they had been chewed off by some absent-minded horse.

Now that the days of oppressive

heat are arriving, the women are making life miserable for the grocers who allow their horses to be driven cruelly. But, there might be more. There comes the time when pressure is strong enough to remove any difficulty. Public sentiment is all that can accomplish the real humane movement.

There is no escaping; we must contract the picture show habit these summer nights.

Had you thought of having the maid or your butler for formal dinner parties wear the uniform which harmonizes with the wall and tile finish? We like the idea. For instance, how well a dark green suit would look against the same tone of wall and mantel. It imparts a certain degree of elegance. The innovation has come so far as to be able to purchase these servants' uniforms at the large dry goods houses in the east. There is not sufficient demand for them in the Texas cities yet awhile.

Are you watching the infantile paralysis situation in Texas? It is worth your while to take precaution in your own home.

W. E. Dupree, Jr., Walter Fort, Frank Duncan, Howard Lazenby, Hiram Westbrook and Berry Brazelton arrived at home from their various colleges on Friday. This gives quite an impetus to the social side of the season.

In the large cities there has come the office of "visiting assistant," who is a woman who assists in the packing of the tourist trunk, arranging the lunch hamper, and so on. Doubtless

some of our perspiring women wish the new profession obtained here. This woman also remains, overhauls the home, and makes it ready for closing.

We were all so delighted with our rose necklaces from California, we will clamor for one of the violet strands of beads which are a later fancy.

Mrs. George Rotan will spend the coming week with her sister, Mrs. Robert Dupree.

A little later in the season Miss Kate Edmond goes to take a summer course in Columbia university.

PAT CLEBURNE CAMP.

Monthly Meeting To Be Held Sunday Afternoon.

The regular monthly meeting of Pat Cleburne Camp No. 222, United Confederate Veterans, will be held Sunday afternoon at their hall in the county courthouse. Besides the regular program of the day, Capt. C. L. Johnson will address the camp. His subject has not been announced. Also delegates from the Chattanooga reunion will report the proceedings of the reunion. A call for the meeting has been issued by Capt. Seth P. Mills, commander, and Bradford Hancock, adjutant, in which they invite the Daughters of the Confederacy, visiting comrades and the public generally.

Political candidates used to have to wear frock coats, but now there is a demand for them to appear in overalls—New Haven Union.

TEDDY'S TREAT.

I wonder if when Ted puts his
Dietrich on the blink
He asked the jurors to come out
With him and have a drink?
—Houston Post.

Why, sure he did; you wouldn't think
That he'd be that contrary.
He wished a wunt, and asked them all
To walk right in the dairy.
—Memphis Commercial-Appeal.

Perhaps he bought a package with
The proof he drank no rum,
And gave to all the twelve men true
A treat of chewing gum.
—Mobile Item.

At all events, his "poers" did not
Drink Teddy's favorite wet;
No chance that light wine should be
Bought
In little, dull Marquette.

The report from Corcoran advises that after more than two days' of "grilling" by the assistant attorney general in an "effort" to show that Archibald and Folger, principal stockholders in the Magnolia, maintain the company as the Texas agency of the Standard, the general manager of the Magnolia was turned over to counsel for defense. We shall not agree with anyone who may suggest that the "effort" referred to appeared principally to be the assistant attorney general's framing of his questions in the assumption that the Magnolia is a Standard concern. As to the "grilling"—is there a criminal feature to the Texas anti-trust acts?

"My understanding was," said Captain Morgan, "that during this state of insurrection which prevailed, the constitution of West Virginia had been suspended by acts of these men who were burning, killing and destroying property"—and we are reminded that not so many years ago such burners, killers and destroyers would likewise have been suspended by a military commission like to Captain Morgan's.

Arkansas' latest is that its governor will permit no more hangings on Friday, because of a protest which referred to the day of the Crucifixion. None will object to Monday in all its indignities for this purpose if juries are satisfactory and the sheriff's engagements plentiful.

No, Ole; our democratic people would not stand for "Winehouse Castle" as the name of the summer white house. Nor would this be appropriate to an environment peopled by your true Vermont native. The wonder grows as to what an "Harkenden Hall" is doing in a Vermont town.

Senator Martine's reference to those imprisoned by the coal strike anarchy military commission as "poor devils" may be the proper method for a senate committee to conduct an investigation of a situation of such gravity and tenseness of feeling, and then, on the other hand, it may not.

Photographs of the late Emily Willing Davidson assure that while the militants may have lost a brave officer they certainly have not lost a beautiful one. Still, with these British bombards courage, not coquetry, is counted on to conquer.

Governor Colquitt means to personally supervise the work of restoring the Alabama notes the Galveston news broadcaster, with delightful subtlety; so convincing his initiative that it will reach the relations of the governor and the Daughters.

Is it or is it not poetic justice that a minister of war should be shot?

The Clarence Ousley or the Ben.

MILNER IS "ACCORDED A PRIVILEGE."

A dispatch from Fort Worth advises Texas of the magnanimity of the directory of the Agricultural and Mechanical College. Also, it informs us that "no action will be taken toward obtaining a president" of that play-institution "until after the special session of the legislature."

"No action will be taken" is good, in this regard. As if Milner's successor had not been determined for heaven knows how many months. And as if the only factor in Milner's resignation were not the long-known determination that he should be replaced. We do not know just when Mr. Clarence Ousley shall return from Europe—but as Milner's resignation does not take effect until September, this possibly eventful date may have nothing to do with the directory's awaiting the conclusion of the special session before seeking to "obtain" a president of the A. and M. Or the possibility that, if the proposed bonding amendment to the constitution carries, next month, the advice and assistance of Mr. Frank M. Bralley might be needed at Austin while the special session is engaged in passing effectuating legislation, in view of his present expert official activity in behalf of Number 18, also may have nothing to do with the fact that no effort now will be made at present to "obtain" a head for the college.

The dispatch from Fort Worth is the conversation of Mr. Walton Foteet, a director of the college. He tells that his colleagues did not discuss the name of Milner's successor when they received Milner's resignation, and will not discuss this until their next meeting, "after the legislature has made certain appropriations." Doubtless there was no such discussion. It would have been a waste of time. Mr. Foteet's statement that there was no friction between President Milner and the directory is to be noted now, and hereafter. And Milner "will be accorded the privilege of making known the reason that prompted his resignation," says Mr. Foteet.

That's the downright kind of the board. Col. Milner is a free citizen of a free State, in a free nation. His holding office under circumstances that even Mark Tapley would consider creditable for a display of cheerfulness hardly abrogates his common rights as a citizen. His statement certainly would be forthcoming without such nice accord of "privilege." But one must not undervalue this graceful supplementing of the bill of rights. Col. Milner should be very grateful therefor.

Or do you dare not to do, Dunne?

AND "CANADA RAISES WHEAT."

Canada turned down Mr. Taft's reciprocity proposal. Canada, we are now told, would give no heed to a "countervailing" system of duty on our agricultural and stock raising products and material, as it would gain no material advantage by free access to such markets here. Intermittent proposals for actual free trade with the Dominion have been scoffed at. Lastly, utter protectionists declare they cannot compete with Canadian products and manufacturers of materials if this or that reduction or free-listing threatened by the Underwood bill is ordered.

Contrasted with all this controversy as to our trade relations with, and warnings of danger in free importation from, our greatest neighbor, we find deep relief in the figuring our New England contemporaries are engaged in concerning a recent report of the department of commerce that the United States ranks second as a customer for Canadian products and first as a supplier of Canadian needs. This is the Boston Globe's comment on the result of its calculations:

"Geography has outwitted the tariff. . . . Good neighbors should and will trade with each other. Canada buys more from us than from all the other nations combined. In spite of tariff preferences Great Britain's share of the Dominion market has steadily declined before the advance of American goods. We take from Canada almost all her exports of mineral products, over one-half her exports of manufactures and a third of her exports of fish. The largest shipments out of the States consisted of manufactures of iron and steel. Coal ranked next. Then, down the line, came wool and its manufactures, corn, oil, drugs and chemicals, raw cotton, gutta percha, fruit, leather and its manufactures. Some day geography will triumph completely and in that time we shall do business with the next-door folks on the level without having to jump boundary-line taxes."

Last year the United States took 33.25 per cent of Canada's total exports and furnished 65.09 per cent of Canada's imports. Over against these figures—"in spite of tariff barriers"—we have the wall of the protectionist legion that the removal of the tariff will result in giving Canada an unreasonable advantage in the American market and every suggestion to establish more neighborly trade relations with the Dominion is the signal for terrible grief.

the protectionist legion that the removal of the tariff will result in giving Canada an unreasonable advantage in the American market and every suggestion to establish more neighborly trade relations with the Dominion is the signal for terrible grief.

the protectionist legion that the removal of the tariff will result in giving Canada an unreasonable advantage in the American market and every suggestion to establish more neighborly trade relations with the Dominion is the signal for terrible grief.

Colonel Milner may be written as one who in the opinion of others than his friends, labored not wisely but too well.

HAMPTON INSTITUTE'S WORK FOR NEGROES.

Industrial training is the keynote of Hampton's success, according to Dr. P. P. Claxton, United States commissioner of education, who is keenly interested in the Hampton work. It is noteworthy that this industrial training is of the most immediate and practical sort, applied to the ordinary producing tasks of life, first of all in the educational plant itself. At Hampton practically all the work is done by the students themselves. There are buildings to be kept in repair and occasional new buildings to be erected; there is a farm of 400 acres to be cultivated, with 150 cows and young stock, forty horses and mules, hogs and poultry. There are horses to be shod, wagons to be built, boys to be clothed—these are a few of the industrial opportunities which the plant itself offers. Last year the students received over \$84,000 in wages, of which about one-fourth went to the girls for domestic work in the institute.

Hampton Institute's remarkable results in training negroes are vividly set forth in the forty-fifth annual report of the principal, just made public. From a school of fifteen pupils and two teachers the institute has grown into a busy educational village of over a thousand persons, with a far-reaching influence, not only for the races it is designed to aid, but for the whole nation, which benefits by the splendid work and example of Hampton graduates everywhere.

This year the boys of the trade school have built Clarke hall at a contract price of \$34,142. The work called for the services of bricklayers, plasterers, carpenters, sheetmetal workers, steamfitters, plumbers, cabinet makers, electricians and painters. The architect who designed the building, after inspecting the brick work done by the boys, said it compared favorably with similar work by New York men, and some of the local builders pronounced it the best piece of work in that section of Virginia.

At Hampton work is considered a privilege; in fact, one form of punishment is the taking away of work from a pupil. No student is ever punished by being forced to work. At the same time, labor is not insisted on as an end itself, but rather as the means to an end. "The aim of Hampton," says Dr. George P. Phenix, vice principal, "is not merely to train workmen, but to educate men and women who shall stand for the best things in the communities to which they return, and who can make their skill contribute to this end."

HAS THE DOVE REALLY 'LIGHTED'?

It was the first personal conference the Governor and Comptroller Lane have had in the Governor's office and caused no little comment.

"The conference was very pleasant and satisfactory," said the Governor. Comptroller Lane's face was wreathed in smiles when he emerged from the Governor's office.

"It was a most pleasant conference," said Mr. Lane. "I was treated elegantly and courteously and I appreciate it."—Staff dispatch, Austin, to San Antonio Express.

Texas Viewpoints

Central Texas Section.
Riggins of Waco declares he has financed his proposed hotel building. It is to be ten stories high, and large in proportion. That'll help some in giving a proper conception of how high their Ambicable building really is.—Temple Telegram.

The nerve of the man, when late-nights Templars stare by his lights already.

Cooke County's Concerns.
Adolphus Busch gave his granddaughter a check for \$1,000,000 as a bridal present the other day. Wonder how much of that sum had been contributed by the Budweiser users of Gainsville?—Gainsville Register.

Assuring Mr. Chief Justice White, Mr. Postmaster General Burleson and the Messrs. Politician solicitors for the success of the newspaper "publicity" not that we are getting no pay for this, we would reply our opinion is that about eighteen dollars and six

bits was contributed by the Budweiser users of Gainsville. The occasional wild gossip of Gainsville we have seen could not possibly have been prompted by Bud, and the ordinary patron of G's refectories shows unquestionably that he prefers a red to an amber color scheme.

All Very Pleasant and Proper.

The manager of the Rice Hotel at Houston paid the Adolphus at Dallas a visit, and then the visit was returned by the manager of the Adolphus. Each hotel man said many nice things about the other's hotel, and managed to say it in the presence of a number of newspaper men, and as a result each hotel got more than enough free advertising to pay all expenses incurred by the visit. These "managers" are worthy of their title.—Brownwood Bulletin.

Which is as it should be. Newspapers cannot say too much in praise of good hotels. They have seen what their cities were not without good hotels and what they were (and, alas! too often are) with bad ones; the same thing. That which may concern the progress and prosperity of a hotel that is a credit to the town is a more important news story than the misfeasances of the mayor. The Rice should be rejoiced over and the Adolphus applauded whenever their worth to the community is demonstrated—which is almost every day, even in a Texas summer.

Don't Denounce Dogs!

Dogs in Doan's.—Tahoka Journal.
They is—Amarillo News.
So is some men sometimes.—Snyder Signal.

Some men and dogs is synonyma.—Cleburne Chronicle.

Them Snyder an' Cleburne editure is pretty tuff on dogs.

Tiny, But Tinklish.

This amendment, instead of taking no account of the present and prospective financial needs of the College, as has been persistently alleged, really provides two methods for supplying the college with funds. Both Governor Colquitt and Dr. Messes make that clear. Both of them concede, for example, that the legislature could, if it elected, allot some part of the money derived from the sale of the university's bonds to the college. If it did not wish to do that, or if the amount thus raised should not be sufficient, it could authorize a sale of bonds for the single and specific purpose of making enlargements and permanent improvements at the college.—Dallas News.

"The legislature could, if it elected."

"If it did not wish to do that, or if the amount thus raised should not be sufficient," and so forth and so following—and it is to be noted that the voters of Texas are beginning to analyze; every little "IF" tucked away in these discussions is being chalked up against the arguments in favor of the adoption of Number 18, for it is known these "ifs" are more than merely rhetorical. The State is not tripping over its feet rushing to put its trust in the legislature; too recently it witnessed enough legislative fourflushing in the matter of the A. and M. college and the platform demand. It will trust the legislature with this great bonding power, will it not? Probably not.

Why Not?

President Wilson insists on fixing the tariff to suit himself. Really, we don't see any use in electing representatives to go to congress and make laws. Why not just turn the whole thing over to the president and his cabinet?—Hamilton Herald.

There's no answer to that question. The tariff must be fixed; and Dr. Wilson's fixing ability compared with the don't-dare performances of some of his bunch in both houses is like to the labor of an intelligent man compared with the job of an amateur plumber.

Waco and The Morning News

The Voracious Reader.
Is this a case of inches?
Have correspondents failed?
Why are there no dispatches?
"Jack Johnson has been jailed?"
—Waco Morning News.

But if you want a rear
From all the sterner sex
Omit a little line on
The trouble down in Mex.
—Denton Record and Chronicle.

Waco's "Gillnet."
Waco has some brilliant newspaper men. There's Brother Robinson of the Waco Times-Herald, the lovable Colonel McCollum of the Waco Tribune, and that Irishman who writes the bright things for the Waco Morning News. When the three get mixed up in a controversy a miniature battle of Gettysburg is pulled off.—Dallas Times-Herald.

We are "Good Will"ing.
Judd Mortimer Lewis of the Houston Post and Times, Editor of the Waco Morning News have fallen upon each other with some spirit. Let us hope that it will turn out with as good will as the three have pulled off in Temple last year when the editors of the state met there. If not to be so easily settled, we would suggest that they fire verse at each other at ten paces. It would be doubt be an appalling spectacle but one through which, perhaps, both would live.—Greenville Banner.

"Gosh" On This Stopping.
"E. C. Fritch, the mechanical engineer, has paid \$100,000 for a picture entitled 'Landscape Stopping Here.'" remarks E. R. Kiser in the Record-Banner. "If we had paid \$100,000 for that picture we should be called 'Landscape Stopping Here.'" At least Mr. Kiser, who could not say that Clarence Ousley was a Waco News.

Nevertheless it looks like someone's hands are not clean.—Fort Worth Star-Telegram.

To look at them
makes you hungry.
So tender they melt
in your mouth.

NATIONAL BISCUIT COMPANY 5c

HONOR FOR COLLEGE

TEXAS A. & M. IS "DISTINGUISHED" UNDER ORDERS OF WAR DEPARTMENT.

Never Had the Rating Until Col. R. T. Milner Became the President.

College Station, June 12.—Military authorities at Washington have again conferred the title of "Distinguished" on the A. and M. college of Texas. A communication from the office of the secretary of war announcing that the Texas farmers college had again been ranked as one of the ten distinguished military institutions in the United States was received this afternoon. Inspection of the college organization was conducted April 7 by Captain Morry of the staff at Washington, who commended the college very highly.

Lieutenant Levi G. Brown, of the U. S. cavalry, is commandant and is assisted by Quartermaster Sergeant Kenney.

The system in the war department is that ten of the educational institutions in the country having military instruction are given this rating of

"distinguished institution." It means that it stands in the highest class and that one member of the graduating class of the college is entitled to appointment to the rank of second lieutenant in the army, taking rank immediately after the West Point class. The Agricultural and Mechanical college of Texas never had that rating until Col. R. T. Milner became president of the college and it has had it every year since he has been president.

WILL RAISE \$20,000

President of Christian University Plans Campaign.
Fort Worth, June 12.—President Kerensky of Texas Christian University this morning announced the organization of a \$20,000 campaign. The money, which will be raised among the Christians of Texas, will be used in paying off debts on buildings and in increasing the endowment fund. The university closed for the year yesterday.
Colby D. Hall will assist Financial Secretary Williams in raising the money.

Flood Wastes Out Bridge.

Amarillo, June 12.—A bridge on the Fort Worth and Denver City railway washed out early this morning north of Amarillo, completely blocking traffic. One of the strongest river known on the Canadian river swept out the bridge. Repairs are impossible until the waters recede.

HOW POLITICS GOT COL. MILNER

AT FIRST MEETING OF NEW BOARD IN FEBRUARY HE HEARD IT.

OUSLEY WAS VOTED ON THEN

But Lacked Two Votes of Having Enough to Elect—Alumni Pleaded for Him.

By James Hays Quarles.
In order that the friends of Col. R. T. Milner may understand his resignation, I want to say that it was determined upon by the board of directors of the college, long before it was submitted by the president.
And Colonel Milner was so informed. There are many telegrams and letters going to him, so the dispatches say, asking him to recall his resignation, but these are without weight. He couldn't, if he would. The real power is located in the front room in the capital at Austin.
Colonel Milner is the victim of political butchery because he would not crutch the present hinges of the knee that thrift may follow fawning. Colonel Milner could have held his position if he had done several things:

1. Agree to the dismissal of certain men at the college that political favorites might have the position.
 2. Agree to the appointment of a certain man as chaplain at the college.
 3. Agree that the livestock feed control should be moved to Austin so that the deputy inspector could be named by political patronage, the anxiety being that they be appointed prior to the election in 1912.
 4. Agree that H. L. McKnight, who was employed at the college, be displaced from his position at the college.
- Fought Political Issues.
But Colonel Milner would not agree to these things. He fought every political issue that was brought up because it was against the interests of the school. He never attended political conventions from the day he became president of the college; he took no part in politics, and he devoted his whole office to working for the betterment of the college.
But in December the governor wrote a letter in which he said he would not appoint a member of the board who would elect a man to a position who was antagonistic to him. In February his new board was confirmed by the senate and held a meeting in Austin and organized with H. R. Cushing of Houston as chairman.
At that meeting in February it was decided by the board of directors that

BLUE AND DISCOURAGED

Mrs. Hamilton Tells How She Finally Found Health in Lydia E. Pinkham's Vegetable Compound.

Warren, Ind.—"I was bothered terribly with female weakness. I had pains and was not regular. My head ached all the time, I had bearing down pains and my back hurt me the biggest part of the time. I was dizzy and had weak feelings when I would stoop over, it hurt me to walk any distance and I felt blue and discouraged.

"I began taking Lydia E. Pinkham's Vegetable Compound and am now in good health. If it had not been for that medicine I would have been in my grave a long time ago."—Mrs. ARTHUR E. HAMILTON, R.F.D. No. 4, Warren, Ind.

Another Case.
Barnard, R.I.—"I write to tell you how much good your medicine has done me and to let other women know that there is help for them. I suffered with bearing down pains, headache, was irregular and felt blue and depressed all the time. I took Lydia E. Pinkham's Vegetable Compound and commenced to gain in a short time and I am a well woman today. I am on my feet from early morning until late at night running a boarding house and do all my own work. I hope that many suffering women will try your medicine. It makes happy wives and mothers."—Mrs. ANNA HANSEN, Barnard, Rhode Island.

Colonel Milner was to resign at the commencement exercises this year. It was intended at that time to elect Clarence Ousley president of the college, but he lacked two votes of enough to confirm him as the president. But Ousley did get enough votes for his nomination as the representative of the college on a European trip, at an expense of \$1,200 out of the college treasury.

I understand now that since the fact has been widely published that the governor stated that he would tell the new board what to do and the forecast was made that Milner was to be displaced and that Bralley and Ousley were the two men being considered, that the board has gotten cold feet on the proposition, having heard from the people.

Judge Kone's Statement.
Judge Kone, commissioner of agriculture, admits that the resignation has been known to the board. In a dispatch sent from Austin last night is the following:
Austin, June 12.—"We knew three months ago that Colonel Milner would resign as president of Agricultural and Mechanical college," said E. R. Kone, commissioner of agriculture and member of the board of directors of A. and M. college.
"At that time a committee consisting of Directors Cushing, Astin and Bennett was appointed to look over the field for a possible successor. The committee made no recommendation at the recent meeting. The presidency has been offered to no one, and there is no particular person in mind for the position at this time," added Mr. Kone.
Last week when the alumni association of the college met in annual session a committee was appointed to go before the board of directors and express the confidence of the alumni in Colonel Milner and urge the board to take no action that would remove him from his position. The committee did go before the board and present the resolution of the alumni association. On the board are three members of the alumni:
E. B. Cushing of Houston.
Dr. J. Allen Kyle of Houston.
E. H. Astin of Bryan.
The board gave no direct answer

in the committee, but the next day the resignation of Colonel Milner was announced.

Milner Well Liked.
I want to say this: Colonel Milner has the confidence of the alumni association of the college. He has the confidence, the respect and the good will of the student body. He has the confidence and loyal support of the faculty.

He has the support of the patrons of the school.
The farmers of this state, in whose interest the college is doing its greatest work, are his friends and supporters, and the political chicanery that has resulted in his removal will be remembered by the voters when certain people again announce for office.

It cannot be that Colonel Milner was removed because he is fighting that vicious resolution No. 15 that proposes an amendment to the constitution, because his removal was determined upon before that resolution was adopted by the legislature. Again, he cannot be disciplined for opposing it since the president of the university is advocating it, all the officers of the university are advocating it, and the superintendent of public instruction is fighting for it. One side of the question is as much politics as the other.

There are some suggestions to the members of the board that David W. Spence be elected president of the college. Mr. Spence is professor of structural engineering and secretary of the faculty of the college. He is a capable man, one who is qualified in detail work and who is a strong administrative man.

All the people have not yet been heard from on the resignation of Colonel Milner.

Bloodhound Sends An Innocent Man To a Prison Cell

Topeka, Kan., June 12.—George Horton, sent to the state penitentiary in 1910 charged with the robbery of a jewelry store in Medicine Lodge, Kansas, has served nearly two years for a crime he did not commit, according to facts brought out today when Governor Hodges announced a permanent parole to Horton. Horton's conviction was based mainly upon the fact that a bloodhound directed suspicion to him.

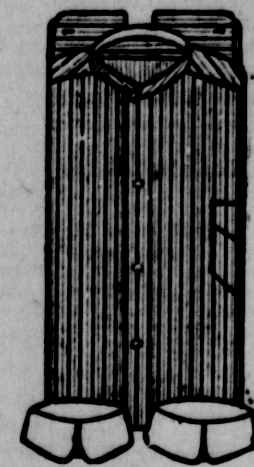

WILLS FORTUNE TO CHURCH.
More Than Quarter Million Left to Missions by Banker.

Philadelphia, June 12.—Funds aggregating more than a quarter of a million dollars are bequeathed to various activities of the Presbyterian church by the will of J. Milton Colton, a former Philadelphia banker, probated yesterday in Norristown. The estate is valued at \$1,500,000. After providing for his widow and other members of the family, a fund of \$250,000 is created and divided into twenty parts. Three parts go to the board of foreign missions of the Presbyterian church; three parts to the board of home missions of the Presbyterian church to pay salaries of missionaries; two parts to the Presbyterian board for relief of disabled ministers and the widows and orphans of deceased ministers; and three parts to the board of publication of Sabbath school work of the Presbyterian church. The remaining parts are for local Presbyterian charities and for the foundation and endowment of a Young Men's Christian Association at Abingdon, where Mr. Colton lived.

After Oleomargarine Taxes.
Chicago, June 12.—Attorney General McReynolds is not through with his investigation of the eleventh hour compromise of oleomargarine manufacturers and treasury officials of the Taft administration by means of which the manufacturers escaped payment of a large part of taxes alleged to have been due the government on colored oleomargarine.

Admiral Osterhaus Retires.
Washington, June 12.—Rear Admiral Hugo Osterhaus, ranking next to Admiral Dewey, will close his active career tomorrow and retire, because he will be 62 years old—the age of compulsory retirement.

Enclosing a chalk line reel in a box which also holds powdered chalk, an inventor has made it possible for a line to be automatically chalked every time it is used.

Marlin, June 12.—The Young Men's Business league held a meeting last night. The main subject of discussion was that of music for the entertainment of summer visitors.

The following officers of Marlin lodge, A. F. & A. M. No. 152 were elected for the coming term: F. B. Sewall, W. M.; E. B. Holloway, S. W.; A. O. Bowdon, J. W.; J. C. Fountain, treasurer; J. H. Anderson, secretary; K. Sewall, tyler.

Mr. Ludwig, C. B. Moody, John L. Sylvester, J. L. Litteral, J. H. Tucker and William Ocker have been appointed delegates to the good roads convention at Corpus Christi July 10, 11, 12.

The county commissioners will accompany them and boost for good roads. The daily afternoon free musical concerts given on the streets by a traveling stock company during the week have been greatly enjoyed by the visitors.

Mrs. J. R. Lockard is entertaining Mrs. W. R. Eiam of Beaumont. Mrs. W. F. Doughty and children will soon join Professor Doughty, who is giving special lectures at the San Marcos normal school.

Mr. and Mrs. Suggs, a newly married couple from Waco, are spending a part of their honeymoon in Marlin. The Rev. Father Apple, pastor of the Marlin Catholic church, says his church will soon commence the erection of a Catholic sanitarium in this city.

The big steel tower and city fire bell, recently removed from the corner of Common and Coleman streets, has been moved and re-erected on a lot just west of the courthouse on Railroad street to make room for the \$20,000 federal building which is to be erected this summer.

Jasper Williamson of Cleburne is doing special stenographic work for

the Falls county grand jury this week. Mrs. Hamon and Mrs. Lizzie Vandervoort of Galveston are spending a three weeks' vacation at Marlin.

Mrs. George Woodland, who was recently hit in the head by a stray baseball and who underwent an operation for the injury, is said to be much improved.

Timothy Brownhill, secretary of the Mexico Land company, Victoria, state of Tamaulipas, Mexico, has, on account of the continued trouble in the southern republic, closed the local office here and will leave soon for Colorado, where he will spend the summer.

Marlin lodge No. 16, K. of P., will give a big barbecue at the county fair grounds in Marlin next Tuesday afternoon in honor of Tom Connolly, who was recently elected to the office of grand chancellor of the state lodge. All visiting members and neighboring lodges are invited to attend.

JOINT CONSUMPTION HOSPITAL.
Fort Worth and Tarrant County Are to Unite.

Austin, June 12.—Tarrant county, acting jointly with the city of Fort Worth, will be the first to build a joint county hospital under the provisions of the Colquitt-McGregor act, passed at the regular session and which goes into effect July 1.

Information to this effect was received by Mrs. O. B. Colquitt, president of the State Anti-Tuberculosis League, today from Jesse M. Brown, county judge of Tarrant county, who asked for copies of pamphlets pertaining to the matter that are being circulated by the league.

The law is intended to give to counties, cities and counties when acting jointly, authority to care for and maintain local victims of the white plague or any other communicable disease with which they may be afflicted without having to send them to the state tuberculosis colony at Carlsbad, which is not in position to care for all the patients who require attention and treatment.

Woman on Commission.
Washington, June 12.—President Wilson has decided to name as one of the members of the industrial commission to investigate disputes between employers and their employees, Mrs. J. Borden Harriman, who conducted the work of the National Woman's Wilson and Marshall Democratic league during the recent campaign.

Armament and power being equal, French engineers and scientists have decided that a pursued aeroplane would have an immense advantage over a pursuer in event of a battle in the air.

DECIDES LIQUOR FIGHT

FEDERAL COURT GIVES OPINION ON INTERSTATE SHIPMENTS.

Banks Are Allowed to Collect Sights Drafts in Prohibition States.

St. Paul, June 12.—A bank which collects a sight draft representing the purchase price of liquor shipped in interstate commerce into a prohibition state does not violate the law prohibiting a carrier from acting as agent, according to an opinion today by the United States circuit court of appeals. The opinion was delivered by President Judge Sanborn, in reversing the decision of the district court of North Dakota, in the case of the First National bank of Anamoose, which had been fined \$300 in the lower court.

"This history of the times and the proceedings in congress which led up to the enactment of the statute," says the opinion, "have convinced this court that the mischief at which it was leveled was not the collection of sight drafts by the banks or ordinary collectors for the purchase price of liquors although many bills of lading were attached thereto and delivered on collection, but that it was the collection by carriers or their agents of the purchase price for c. o. d. shipments of liquor into prohibition states whereby they became virtually the agents of the liquor dealers."

"The collection of sight drafts and the delivery of bills of lading attached thereto, long had been a common method of collecting the purchase price of liquors intended without mentioning or referring to it in the statute to strike down this method of collecting for the sale of liquors transported in interstate commerce in all the states in the large majority of which the manufacture and sale of intoxicating liquors is not prohibited."

Judge Sanborn declares that in the opinion of the majority of the court the law excludes "banks, ordinary collectors who are not members of the general class of carriers."

In a dissenting opinion Judge Triebel declares that the statute clearly includes not only all common carriers, and their employees, but any person who is connected with the transportation of intoxicating liquors in interstate commerce, which shall collect the purchase price thereof before, on or after delivery, from the consignee or any other person, regardless of the fact that he is not an employee of the carrier.

A man named Meyers, living at Anamoose, N. D., ordered a case of beer from St. Paul. The brewing company shipped the beer into North Dakota, a prohibition state, and received a

bill of lading from the railroad under an agreement that the railroad would not deliver the beer to Meyers until he had presented the bill of lading to the agent at Anamoose.

The bill of lading was attached to a sight draft on Meyers for the purchase price of the beer and was sent by the brewing company to the First National bank at Anamoose, which agreed to collect from Meyers before delivering the bill of lading to him. After completion of the transaction the bank was indicted, convicted and fined in the federal court for violation of the penal code.

ASSASSIN GIVES BATTLE.
Supposed Murderer of Turkish Vizier Fights Police.

Constantinople, June 12.—A man named Zia, supposed to be one of the grand vizier, Mahmoud Shekret Pasha's assassins, gave battle today when the police surrounded him in a house. A police officer was probably fatally shot, a magistrate wounded and Zia himself mortally wounded. The police had to call troops before they overcame Zia's companions.

For the use of jewelers an Englishman has patented a magnifying glass which may be attached to spectacles, yet readily swung to one side when not needed.

CLUB COMMENDS MR. MILNER

Commercial Organization Pledges to Removal of Head of Agricultural and Mechanical College.

College Station, June 12.—Resolutions commending the administration of Col. R. T. Milner as president of the Agricultural and Mechanical college, who resigned from that position recently, were adopted by a meeting of the Bryan Commercial Club today. The resolutions protested against his removal and warmly praised the conduct of affairs at the college during his tenure of office.

The alumni association at its meeting here adopted resolutions declaring that the removal of Colonel Milner would be most unfortunate and very detrimental to the best interests of the institution, at a meeting of the faculty today resolutions commending the president's official actions during his administration were adopted.

Colonel Milner has received many telegrams and letters commending him and protesting against his resignation. He will remain in office until September 1, when he will return to Henderson to take charge of his farm.

Beaumont, June 13.—The Navigators bunched hits on Ducky Swan in the sixth and seventh innings of today's game, making just seven runs, enough to win with. The locals started scoring first, making a couple of runs in the fifth on a couple of bases on balls and a triple by Dobard. Dobard put up a great fielding game at short, accepting eleven chances without an error. Umpire Matthews did not show up and two players, Ashton and Marshall, officiated.

Galveston 10, Austin 6.

Galveston, June 13.—With the score standing 9 to 3 against them in the eighth inning today, the locals came through with seven runs in a row and won opening game with Austin 10 to 6. McCuller was batted out in that inning and Taylor, who took his place, was no better. Sewell started the game for Galveston, but was easy for the Senators and was taken out in the fifth after six runs had been made. Todd was hammered for three more tallies in the next three innings and gave way to Hiett.

New Orleans Holds League Leaders

Scoreless and Wins 3 to 0—Montgomery Beats Memphis.

Memphis, Tenn., June 13.—Opportunity hitting by the Montgomery players and costly errors by Butler and Shanley of the Memphis team in the first inning gave the visitors a five run lead and made a 7-to-2 victory easy.

Score—
Montgomery 510 000 001—7
Memphis 011 000 000—2
Manning, Bagby and Gribbens; Liebhart and Seabough.

Chattanooga 3, Atlanta 1.

Chattanooga, June 13.—Chattanooga batters hit two Atlanta pitchers hard today, while Sommers pitched good ball, the locals winning 3 to 1.

Score—
Chattanooga 131 003 000—4
Atlanta 000 000 100—1
Sommers and Street; Brady, Dent and Dunn.

Birmingham 3, Nashville 2.

Birmingham, Ala., June 13.—A timely single by Kinsley drove Maroon across the plate in the ninth inning, winning a close game for Birmingham against Nashville today.

Score—
Birmingham 000 000 201—3
Nashville 100 000 100—2
Sloan and Mayer; Beck and Gibson.

Polkey's Trial June 13.

Calgary, June 13.—The trial of Arthur Polkey on charges of manslaughter in connection with the death of Luther McCarty during their prize fight here on May 24, was set today to begin June 19. Tommy Burns will not be tried before fall.

ATHLETICS WIN IN THIRTEENTH

KAHLER'S WILD HEAVE ALLOWS
BARRY TO SCORE THE

New York	18	26	.409

Philadelphia, June 13.—In the thirteen inning of today's game Barry hit for two bases and Schang followed with a bunt on which Kahler made a wild throw, allowing Barry to score. Thus Philadelphia won from Cleveland 3 to 1. Mitchell was taken out in the ninth to make room for a pinch hitter.

Score—
R. H. E.
Cleveland 000 000 001 000 0—1
Philadelphia 100 000 000 000 1—3
Mitchell, Kahler and Land, Carlsch; Bender and Schang.

Chicago 6, Washington 4.

Washington, June 13.—Chicago today won from Washington 6 to 4. The visitors scored 4 runs and knocked Hughes out of the box in the third, but Mullins, who relieved him, held them to one run, while the locals crept up. In the eighth Weaver was caught between third and home and Shanks, Washington's left fielder, ran him down.

Score—

TEXAS RANCHER MURDERED.

Mexican Assassin Flies on Horse to Rio Grande.

Sanderson, June 13.—Details of the murder last night of John McKay, a prominent ranchman of this county, are still lacking, but it has developed that he was beaten to death with a club by Juan Reyes, a shepherd, in his employ.

McKay had gone out to hunt for some sheep that were missing and it is supposed he upbraided Reyes for losing them.

About noon he lay down to sleep and the Mexican slipped up on him and killed him. The Mexican then escaped on McKay's horse, going towards the Rio Grande.

The murderer had ample time to get to the river and across before anything was known of the killing and up to this time he has not been found.

Two Cases of Paralysis.

Houston, Texas, June 13.—Only two cases of infantile paralysis have developed in Harris county so far, one patient being in the city and the other in the country. Both are doing well and bid fair to recover without lasting injury.

BURNS WINS MATCH

CALIFORNIAN GETS TWO OUT OF
THREE FALLS AND BEATS
MONTAUR.

Bout is Hard Fought—Both Boys and Received Terrible Punishment.
Noble Challengee Burns.

Waco wrestling fans got their full of rough and tumble work last night when they witnessed three falls in the bout staged between Jimmie Burns of California and Chief Montaur, Indian wrestler of Oklahoma, at the Auditorium. Burns won the match, getting two out of three falls. Montaur got the first fall in sixteen minutes flat, placing Burns' shoulders to the mat with a toe hold. He dealt his man great misery in bringing him to the floor, and Burns gave up only after he had suffered for several seconds with the powerful Indian dragging at his leg. The first fall was gained only after the two fought all over the mat to gain the advantage. Time after time each slipped from what looked like a sure fall.

With one to Montaur's credit, backers of Burns did not desert their man, and Burns money was offered freely. Coming back for the second go both appeared fresh. Burns got into the game and within a few seconds had a scissor hold on the body. This weakened the Indian to such an extent that when he broke the hold, and Burns secured a combination strangle and head hold he could not resist, and went to the mat. The second fall was in nine minutes, sixteen seconds.

When Burns was awarded the fall the fans went wild with enthusiasm, rushing into the arena and carrying him to his corner.

For the third and final go Burns was the aggressor, although the Indian did his best, after twenty-four minutes of preliminaries Burns again got a strangle hold and put his man to the mat.

The bout last night was probably the hardest that has been staged. No hold was made for both men inflicted much punishment in the use of the strangle and toe holds. Burns announced after the first fall that he gave up to save his leg, and when he was announced the victor in the last fall the Indian lay on the mat groaning from the severe punishment the strangle hold had inflicted.

Jack Noble of Chicago challenged the winner and Burns accepted the challenge. The bout will be staged some time next week.

Probably the best crowd that ever witnessed a similar bout gathered at the auditorium last night. They evinced enthusiasm which has been missing in previous bouts.

IN COTTON MARKET

CRASHING FOR REACTION CAUSED
A SLIGHT DROP IN
PRICES.

Adjusted Advance One Point, but the
General Trendway is
Lower.

New York, June 13.—The cotton market was less active today with prices ending off under reaction or selling for a reaction, after the recent sharp advance. The price was about 1/2¢ in advance of 1 point on August, but generally 1 to 2 points lower.

The market opened firm at an advance of 1/2 to 3/4 points on the cotton futures in Liverpool and London, covering which seemed to come largely from Wall Street sources. The more optimistic view of the financial outlook probably encouraged some fresh buying in connection with reports of increased activity among domestic mills and an active demand in textile trade in the west, but old loans took profit from the initial advances and prices were checked.

There were some further complaints of low night temperatures from the eastern belt and reports of threatened frost damage in central and western belt sections. Otherwise crop advice was generally favorable, however, and sufficient for good weather over the season to inspire some selling for a reaction.

Trading became comparatively quiet after the first hour and the market fluctuated within a point or two of last night's closing figures during the middle of the day, but there was a little flurry of selling in the afternoon on reports that a prominent Memphis cotton dealer made the condition of the crop over two per cent lower than when the government's June condition figures were compiled. Closing prices were at the lowest point of the day with June and July steady and the market lower.

New Orleans and Liverpool buyers were credited with selling rather freely here during the morning, while comparatively light offerings were sufficient to unsettle the market in the late afternoon, owing to the absence of any important support. It was reported that about 1,000 bales of cotton are on the way from the south for contract delivery, but it is also reported that about 4,000 bales are to be shipped from here to Genoa next week.

New Orleans, June 13.—After a small initial advance today the price of cotton worked lower. The market had little of the snap shown on several preceding sessions this week, the short interest appearing to have been considerably reduced and longer were apparently more disposed to try for profits than for a further rise.

One reason for the lower trend of the market was the more favorable turn taken by the weather over the cotton belt. Temperatures were high, and rain to the rain was reported, the forecast promised continued dry and summer weather and much rain from the field where that work was progressive but, although young plants to some extent showed the effect of recent cold nights. Many of the more advanced cottons of the belt reported abundant and healthy growth.

The cotton market made its appearance about July 1.

The opening was steady at an advance of 1/2 to 3/4 points. In the early morning the advance was advanced to 1/2 to 3/4 points, which was the high of the day. Prices gradually slipped until they were 1/2 to 3/4 points under the last quotations of yesterday. The afternoon was dull. The market closed barely steady at the lowest of the day.

IN THE GRAIN MARKET

NEEDED RAIN IN WHEAT BELT
CAUSE PRICES TO GO
DOWN.

Heavy Offerings Put Down Core
From High Levels of the
Season.

Chicago, June 13.—Much wanted rain that fell today lowered the price of wheat. The decline was 1/2 to 3/4¢. Corn fell 1/2 to 3/4¢ and oats 1/2 to 3/4¢. Provisions at the finish varied from 1/2¢ to a rise of 1/2¢.

It was pointed out that the dampness to which Kansas and Nebraska were treated would turn the chief reason for the late weakness. It was also noticed that primary receipts were three times as large as a year ago—671,000 bushels against 217,000 bushels. Heavy offerings from cash concerns were unable to sell to the east or to local industries pulled down corn after the market had touched off a new high level for the season. Good speculative buying caused the early advance.

Damage reports proved insufficient to sustain oats when holders attempted to convert paper profits into money. Provisions as a rule scored gains. Stocks on hand were light and hogs relatively scarce.

TEACHERS AMUSED BY SCHOOL KIDS AT THE UNIVERSITY

PROF. ERNST DEMONSTRATES POSSIBILITIES OF MUSIC IN PUBLIC SCHOOL SYSTEM.

The Marlin high school orchestra, under the direction of Prof. A. Ernst, gave a free concert to a large audience at Carroll chapel, Baylor university, last night showing the possibilities of first class music in the public schools.

For the most part the audience was made up of public school teachers of the city and normal teachers at the university. Prof. Ernst made suggestions between the numbers of popularizing music in the schools, and the relation of music and free educational institutions.

The professor declared that it was best for the department teacher to "bring music forward and let the dollar go." He believes that appealing methods of presenting music to the students by amateur orchestras and juvenile military bands will be a very efficient educational factor in training the pupils to appreciate good music and may be easily accomplished if the teachers get the spirit of the idea and back it up with plenty of initiative.

The success of Prof. Ernst's efforts with his own pupils was shown by the hearty applause of the audience and the congratulations he received after the concert.

Members of the orchestra who played last night were: Edwin Ernst, violin; Robert Ernst, flute; Chesley Snell, bass; Ernest Donahue, drum; and Almer Ernst, pianist.

The musical numbers were as follows: High School Cadets.....J. P. Sousa Overture-Reception.....Schlegel's Toss Serenade.....Flute, Clarinet Duo The Holy City.....Cornet Solo March.....Paderewski Southern Melodist.....Paderewski Semestre-Lullaby.....Paderewski March-School Life.....Paderewski

DELEGATES ARE NAMED

ELEVEN McLENNAN HIGHWAY ENTHUSIASTS TO ATTEND MIDSUMMER CONGRESS.

Meeting Will Be Held July 10-12 at Corpus Christi—Numbers Expected.

Delegates from McLennan county to the mid-summer congress at Corpus Christi July 10, 11 and 12, have been named by County Judge George N. Denton. The midsummer congress is affiliated with the Texas good roads association. Every county judge in the state, and the members of the various county commissioners' courts are ex-officio delegates to the meeting. Every county judge is empowered to appoint delegates to attend. The meeting is being prepared for on a large scale by the city of Corpus Christi. Letters have been sent out all over the state by the commercial organizations of Corpus Christi and by the Texas Good Roads association urging attendance by as many good roads enthusiasts as possible.

Judge Denton named the following delegates from this county: A. C. Wendorf of West, J. Walter Cocks of Waco, Dr. W. E. Hall of Hallsburg, Dr. J. E. Brown of McGregor, J. C. Reynolds of Moody, R. W. Bass of Mart, J. M. Washam of Crawford, J. L. Spencer of Mart, H. E. Culpepper of China Springs, E. W. Pumphrey of Riesel, Ed Castleman of Axtell.

Will Open Bids for Park Music Tuesday

The city commission is to again provide for band concerts in the various parks during the summer months. Yesterday morning the commission instructed Finance Commissioner Caulfield to call for bids from the local bands for the summer concerts.

Bids are to be opened June 17. Though school slates have been thought to be out of date more than \$400,000 of new slates were manufactured in the United States last year.

You need not look over your glasses when raising your eyes from reading if you have a pair of our latest improved double lenses. Two pairs of glasses made in one for both far and near seeing. They preserve your eyesight and make you see with absolute comfort. We are the authorized agents for this new lens. Call in and let us explain their merits. Dr. W. B. Georgia & Co., at the big electric spectacle sign, opposite Sanger's new store, 324 Austin ground floor.

REWARDS ARE OFFERED

INSURANCE RATE LOWERED TWO PER CENT—CITY WILL PAY \$300 FOR ARSON CONVICTIONS.

Kiddies to Be Taught Principles of Fire Protection, Lopping Off One Per Cent More.

Notices that the city will pay a reward for the arrest and conviction of any person guilty of arson within the city limits will be posted in public places throughout the city. Some days ago an ordinance was passed providing a reward for the arrest and conviction of any person guilty of burning any structure in the city. This action was taken in order to procure a reduction of two per cent in the fire insurance rate, which is provided for by the fire rating board, where a reward of that nature is offered.

The reward was offered but the rate was never reduced as the provisions of the ordinance require that notice of such a reward must be posted in public places. Fire Marshall Dan Nicholson took the matter up with S. W. English, state fire marshal, and Mr. English enclosed a copy of the rules as a reply. These were presented to the commission yesterday and the fire marshal was instructed to post the notices at once.

It was also stated that books, which teach fire protection would be adopted in the public schools, which will permit of an additional reduction in the rate of one per cent.

The reward offered is \$300, or \$1 for each 100 inhabitants.

SCALES DO NOT MOVE IN THE LOCAL COURTS

EFFORT TO GET EVERYTHING OFF THE PUBLIC SQUARE HAS FAILED.

Dollins Says Waco Must Have a New Market Place—Arman Tract Considered.

The public scales and the hitching posts are to remain on the square.

Street Commissioner Foster, who at the last meeting of the commission recommended that the scales be taken off the square and the hitching posts be done away with, yesterday recalled his recommendation, and favored allowing both to remain. He said, "I have done all I could to do away with the hitching posts around the square and I found it could not be done. So I have decided to place metal posts with an iron chain connecting them around the square with the exception of the front of the city hall."

With reference to the scales he said he had been unable to find a suitable place to move them, and he guessed they would have to remain on the square. He also said the public weigher had promised to build a stucco building, and make the scales as slightly as possible.

Mayor Mackey said he was sorry the scales could not be removed, and urged that unless the scale room is made slightly he will insist on it being removed.

In this connection Commissioner Dollins suggested that the square was getting more congested every year, and the commission should begin to look around for a block of land suitably located where a public market place could be built. He said he favored buying such a plot as soon as possible. To this Mayor Mackey said the city was now engaged in litigation over a tract of land which was favorably located for just such purposes. The tract lies just north of the suspension bridge, on this side of the river, and fronting along the river.

The matter was not discussed further. Members of the commission will probably take the trip on foot over the proposed route of the Cameron park sewer. Commissioner Foster invited them to accompany him on the trip yesterday. The intention was not accepted, as the trip is rather a long and disagreeable one. However, it is expected a majority of them will go.

Mayor Mackey reported that he was holding up the order for the sanitary drinking fountains, to give local plumbers an opportunity to bid on them. Also he said the plans would be changed slightly. Eight of the fountains are to be installed in the downtown district.

The report of the investigation into the fire automobile accident of June 2, made by Commissioner Dollins, was adopted.

Application was made by a resident of the city for pay for four days time, which he stated he lost from work because of being quarantined by city health officers. He stated that he was quarantined for smallpox, but did not have smallpox, and after four days the quarantine was raised. The commission stated the city does not consider itself responsible in any way.

Application was made to have Jones street in front of the Brazos Packing company sprinkled. The application was referred to Commissioner Littlefield.

CITY'S FEED SUPPLY. Will Buy 100 Tons of Hay and 10,000 Bushels of Oats.

Bids for the season's hay and oat supply for the horses used in the street and fire departments will be asked for to be opened June 20. One hundred tons of hay and 10,000 bushels of oats will be purchased by the city.

LUMBER SALESMEN IN SESSION HERE

DISCUSS BUSINESS CONDITIONS. HOLD JULY BANQUET AT GALVESTON.

The regular monthly meeting of the Wholesale Lumber Salesmen of the state was held last night on the second floor of the Provident building. Business conditions as it affects the lumber men of the state was discussed. Galveston was selected as the meeting place for the July banquet. Waco is headquarters of the organization and the meetings are held here monthly. Every three months, however, some other city in the state is selected as meeting place.

Yesterday afternoon the salesmen met the Waco lumbermen in a baseball game. The game was a hotly contested exhibition, full of fun for the two hundred or more fans who witnessed it. The score was reported as a tie, 11 to 11. No admission was charged, but a donation was given by the lumbermen and their friends which will be used to provide gymnastic apparatuses for the orphanage home. An amount sufficient to purchase balls, bats, gloves and other things for the youngsters were secured.

The tie game will be played off later. Among the out of town salesmen at the meeting were A. W. Pearsall, E. F. Straube of Fort Worth, J. M. Wells, Dallas; Adair Lockman, president of the state association, Houston; W. L. Anderson, Fort Worth, and M. Y. Donk, Hubbard.

CONTEST OF THE WILL OF DAVID W. POGUE IS BEING HEARD

Leaves Community Property to Sisters. Wife Claims He Was Too Weak to Make Will.

Contest of the probate of the will of David W. Pogue, is on trial in the probate court, Judge George N. Denton presiding. The contest was filed by the wife of the deceased. Pogue died some few months ago, leaving an estate of approximately \$5000. The day before his death he executed a will leaving his half of the community property to his three sisters. Under the law, without a will the wife would have inherited all of the estate. The contention of the contestant is that at the time of his death Pogue was so weak from illness that he was in no condition to make a will.

Pogue was for a number of years stamp clerk at the local postoffice. The probate will consume several days, as detailed testimony is being taken. Examining Trial. Examining trial of Tom Holder and C. L. McCox, charged with theft from the person, was begun in Justice J. L. Padgett's court yesterday. The case was not completed and was postponed until 10 o'clock this morning, when it will be resumed. The men are charged with relieving a man by the name of Santos of \$25. The theft is alleged to have occurred in an alley just off Sixth street between Austin and Washington. It is alleged they had accompanied Santos to two picture shows before the robbery.

COUNTY COURT

George M. Denton, Judge. J. W. Baker, Clerk. J. E. Osborne, adjudged of unsound mind. Mexican Lewis, charged with theft, entered a plea of guilty and was fined \$1 and sentenced to one hour in jail. Verdict for the plaintiff for \$24.19. The amount sued for, in suit of Abe Novich vs. M. W. Needham et al.

JUSTICE COURT

J. J. Padgett, Judge. Sam Myer and E. Kleinberger charged with theft of a horse, released and exonerated when given a preliminary hearing in Justice Padgett's court yesterday.

Jim Baggett, negro, charged with cruelty to animals, fined \$5 and costs. Notice of appeal was given. Baggett is alleged to have beaten a horse with a loaded buggy whip.

Complaint Filed. Complaint was filed in the county court yesterday, charging Mrs. Brown with carrying a weapon.

SUITS FILED

Nineteenth District Court. Twenty-five tax suits were filed by the city of Waco against delinquent property owners yesterday.

L. L. Clark vs. W. B. Haller and wife, trespass and to try title.

Marriage Licenses. Johnnie Williams and Miss Ethel Hatcher.

Automobile Licenses. E. Y. Blount, Mart; Marathon. Dr. W. F. Thompson, Waco, 4-cylinder 20-horsepower Studebaker.

George D. Stubblefield, Waco, 4-cylinder 20-horsepower Ford. J. J. Flanagan, Waco, 4-cylinder 30-horsepower Ford.

Motorcycle Licenses. Alley Smith, Waco, 1-cylinder 4-horsepower Excelsior.

J. R. Rusan, Waco, 2-cylinder 7-horsepower Indian.

Personal Mention

R. B. Ennett of Houston is a guest at the New State House. E. G. Kern is here from Dallas on a short visit.

E. F. Strules arrived yesterday from Fort Worth. L. L. Hopper is registered at one of the downtown hotels from San Antonio.

W. J. Lofton was in Waco yesterday on business. He is from Sherman. G. M. Wilson is visiting friends in town while here from Wylie.

Men Should Select Summer Shirts With the Utmost Care

By this we don't mean to infer that clothing should be selected carelessly at any time—but we do want to impress upon men that Summer Clothing requires particular judgment. In building Summer garments light weight fabrics are utilized, and right knowledge and dependable tailoring influence the style and the substantiality of the garment to a marked degree. Every Suit shown in the Greater Sanger Men's Clothing Department reflects the care with which we select. Permanent shape is secured by fine tailoring; all wool fabrics which lend themselves to perfect draping are carefully chosen; expert designers have created these smart and authentic styles.

We want you to visit our Bigger and Better Clothing Department and inspect the exclusively fine garments we are showing at

\$15.00, \$18.50 and \$20.00

Black and White Weaves, Pencil Stripes, Chalk Stripes, Soft Blues and Grays; each pattern the master work of master weavers, and many of the fabrics are imported.

Sanger \$4 and \$5 Shoes for Men

We unquestionably sell the best Men's Shoes to be had at Four and Five Dollars. They are not only of higher grade materials, but they are better made and more distinctive in fashion than the Shoes shown elsewhere. The great assortment embraces a host of styles and offers an easy selection to the most particular buyer. All leathers.

City Will Assist Directorate to Get Heintze Collection

The city commission will aid the park director in securing for the Cotton Palace the historic collection which has been gathered by August Heintze of LaGrange, Texas. It is understood that Mr. Heintze has indicated that he would turn the collection over to the Cotton Palace. The city commission discussed the matter yesterday, and it was referred to Commissioner Caulfield. Mr. Heintze's collection of historic articles is said to be the most complete and interesting in the South-west. It comprises approximately 10,000 separate articles, many of which are of great value as historic mementos.

WILKINS QUILTS WATER BOARD

After Six Years' Service, Tenders His Resignation to the City Commission.

M. E. Wilkins, for the past six years a member of the city water commission, yesterday tendered his resignation to the city commission. The resignation was accepted and a vote of the commission was passed expressing sincere regret because of the leaving of the one that has so long connected Mr. Wilkins with one of the departments of the city. Mr. Wilkins was commissioner from Ward No. 1. His successor will be named by the mayor, the nomination to be confirmed by the commission.

Special Notice to the Public!

You must know that the UNITED SHOE REPAIRING CO., in connection with the RALSTON SHOE STORE, is the nearest and cheapest repair parlor in the South. All our work is done with the latest electric machine. All we ask of you is to come and inspect our repair department, especially for ladies that are looking for a clean and up-to-date repair shop. We call for and deliver to any part of the city.

NICOSIA BROS. New Phone 531. 318 Austin St.

Lease System For City Chain Gang

City convicts may be leased to either the county or to private persons, if an ordinance which Commissioner Littlefield is fathering passes the commission. Mr. Littlefield at the meeting yesterday asked that the city attorney be instructed to bring in an ordinance under which the city can hire its convicts to either the county or to any corporation. His motion carried with himself, Commissioner Foster and Commissioner Dollins voting yes. The ordinance will be presented at the next meeting.

In making the application for the ordinance Commissioner Littlefield said he did not know that the city would ever take advantage of the lease system, but he desired that the city have the authority to do so if it became necessary, saying that under the state law a city must have an ordinance providing for such lease, before it can be done. He also said his application for the ordinance on the spot that the police have been having considerable trouble making some of the convicts work. He named one in particular who is now in custody and who has absolutely refused to work. He has been taken along with the street gang to the work, but he refused to labor himself. Mr. Littlefield said there was no way in which he could be compelled to work, and said it was for just such as he that the ordinance was needed.

Commissioner Dollins said he was opposed to the leasing of convicts, and would vote against the ordinance. He also suggested getting the best convict on bread and water, and said the city could use all the prisoners on city work that she had. He favored putting them in the rock quarry. Commissioner Caulfield also said he opposed leasing convicts, but that under the explanation made by Commissioner Littlefield he would favor such an ordinance.

NO MONEY FOR MORE SALARY

City Cannot Increase the Pay of the Street Force and Her Firemen.

Salaries of city street employees and of the firemen will not be increased at this time Finance Commissioner Caulfield and Street Commissioner Foster, to whom the application for increase in pay by the fire fighters and the street employees was referred, reported yesterday morning at the commission meeting that there was no money on hand to meet an increase in salary.

The reports were in written form and also contained the recommendation that the application for increase of pay be investigated before the next budget of the city is prepared with a view to granting the increase, should it appear warranted.

The recommendation for increase in pay were made at the last meeting of the commission. The increase requested would amount to a considerable sum of money monthly, so much, in fact, that the city would not have the money to pay the bills.

FIRE DESTROYS FUEL OILS

Power Company Sustains \$1,800 Loss. Cars Are Filled by the Flames.

Fire destroyed the coal and oil bins of the gas works belonging to the Texas Power and Light company last night at 9:30 o'clock.

The gas works are situated on the banks of the river and Mary street. The damage is estimated at \$1,800 by Superintendent W. B. Rathell. The plant, according to Mr. Rathell, will be in working order this morning, and gas will be supplied without much delay.

Three cars on the Cotton Bank siding at the plant caught fire. One was an oil car, which was filled. A little car was badly burned and a coal car was in flames when a switch engine pulled it out of danger.

A fire alarm was turned in from Fourth and Mary after the cars had been pulled there and part of the fire department responded. A hose was played on the burning oil car, which kept it from exploding.

During the fire, a switch engine cut a line back which had been laid down across the tracks.

Local News Notes

Mrs. J. A. Garrison of Russell, Ok., and Mrs. G. B. Wilkinson of Stamford, are visiting W. and John Gorman at Macquerville.

Mr. and Mrs. R. B. Brown of Griffin, Ga., are also visiting the Gormans.

Miss Sue Gorman Ford is visiting in San Prairie, Wis.

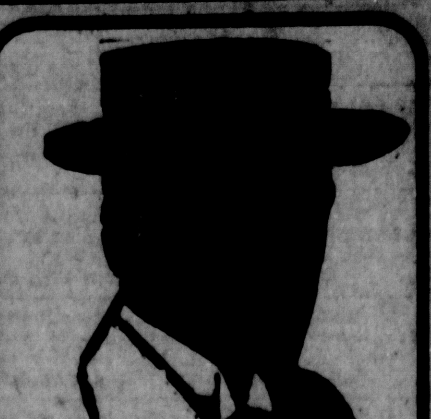

W. B. Rathell, of the Texas Power and Light company, appeared yesterday before the city commission with the request that in the future the deposit of \$50 put up when a house is removed from one part of the city to another, be held by the city secretary until his company has an opportunity to file claim for damages. He stated that wires belonging to his company were often torn down by a house moved through the streets, and that his company, as a rule, did not get paid for the damage. The commission instructed the secretary to hold up the guarantee money until claims are filed or it is released.

Constable Leslie Staggall, who has been ill for two days, was at his office yesterday.

PHONE OFFICIAL IS HERE

San G. Hyde of the Independent System, Dallas, Tex., president of the Dallas Valley Telephone and Telegraph company, arrived yesterday and spent last night in business conference with President J. E. Harris and other officials of the company.

Mr. Hyde has just made a trip through the east on matters connected with extensions and improvements being made by the independent system in this state, and will leave in a day or two for a trip through Texas inspecting the properties.

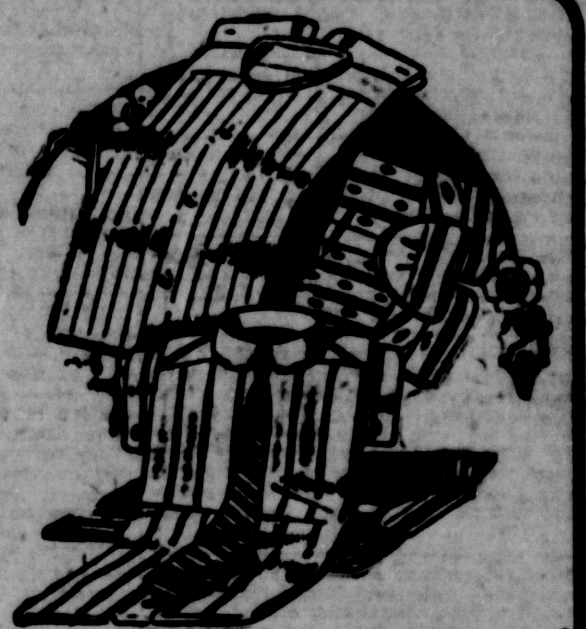

Men's Straw and Panama Hats

When you set out to secure that new Straw Hat, you had best look at the splendid display we have gathered here in our New Men's Department. They represent the latest style developments and the highest degree of perfection.

Straw Hats are changed quite a bit in style this season: decided departures in the heights of crowns and the width of brim, but they are remarkably smart and effective. We speak especially of their style, because many men consider this feature first, and it is mighty important. However, quality is even more so the real basis of Hat merit.

What is true of Straw Hats as to quality and correctness of style in our Hat Department, is also true of our showing of Panama Hats.
